

Whitewater rafting adventure at Pacuare, Reventazon & Sarapiquí Rivers

Costa Rica offers some of the world's finest whitewater rafting. Mountainous topography and copious rainfall are both responsible for this fact.

River trips are not only full of excitement, but also gorgeous, beautiful wilderness scenery.

Enjoy our tropical rivers, whether an expert or beginner, nature lover or thrill seeker, routes available range from turbulent waters of the lower Reventazon or Pacuare River to those of more quiet waters where you spend more time watching wildlife, or a combination of rapids and calmer stretches where you can sit back and enjoy the passing scenery.
